N95 disposable masks

Features

Light weight and thin construction with a soft inner layer. Elastic head straps are sonic welded inside the outer layers. Proprietary technology that makes the mask incredibly light weight (33% less). Latex-free and silicone-free construction. A universal, one size respirator. Masks are individually bagged. Dispenser style box with tear-out/cut-out panel.

Benefits

Added comfort, minimizes pressure point, increases wear time and decreases wearer fatigue and allergy-free.

Designed to fit most face sizes and shapes. Protects from exposure and contamination when the box is opened. Transports and folds easily to fit in pockets.

ONE-Fit Surgical N95 Respirator
Molded Cup (HC-NB095)
